Read Download An Introduction To International ...

International organizations are unusual creations: generated by and for their member states, they must also often compete with member states. This complicated relationship leads to some uncertainty in the law, and the legal argument of an organization may often be counterpointed by an equally valid argument from a member state.

For example, with increasing global influence comes the need for internal control and accountability.

An Introduction to International Institutional Law (2nd ed.)

Introduction. For many years, it has been seriously debated whether international organizations could actually enter into international commitments. In other words: did they have the capacity to conclude treaties? Or was treaty-making rather something they were incapable of doing unless specifically and explicitly empowered to do so?
