One simple use of base ten blocks that translates well to a paper and pencil method of addition is to add by regrouping. To add two or more numbers, start by representing each number with base ten blocks. Put all of the cubes from both numbers in the same pile; do this with the rods, flats, and blocks as well.

### Base Ten Blocks Worksheets - Free Math Worksheets

Draw one factor with base ten notation in a vertical line (see related media for an example). Create an array by filling in the shape with base ten notation. Point out as you draw, that a 10 rod times a 10 rod would be drawn as a 100 because  $10 \times 10 = 100$ .
