Big Book Of Dashboards

Comprising dozens of examples that address different industries and departments (healthcare, transportation, finance, human resources, marketing, customer service, sports, etc.) and different platforms (print, desktop, tablet, smartphone, and conference room display) The Big Book of Dashboards is the only book that matches great dashboards with real-world business scenarios.

Big Book of Dashboards

"The Big Book of Dashboards provides a solid treatment of the fundamentals of data visualization, but the numerous examples are what set this book apart. The comments from the authors after each chapter remind the reader that creating influential dashboards is both a science and an art. This book will spend more time on my desk than on my shelf—incredibly practical."

The Big Book of Dashboards - PDF Free Download

The Big Book of Dashboards is one of the best I've read on dashboard design. The book starts out with a concise presentation of why we visualization data. That is followed by nearly 30 dashboards each taking on a common business use case and critiquing what works and what doesn't and how to make it better.
