Dulux Trade Water-Based Paint | Painting | Screwfix.com

Interior paints consist of water or oils, binders, pigments and solids. Binders are plastic-like polymers that bind the pigment together to form a tough, continuous film. In oil paints, look for "drying oils," like linseed (soya) or modified oil (alkyd). In latex paints, look for 100 percent acrylic binders.

Best Interior Paints for Every Room - The Home Depot

For all the benefits of water-based paint, try out the Dulux Quick Dry range. Why choose water-based paint? Dulux Quick Dry water-based paint harnesses the latest technology to take the hassle out of trim-based decorating tasks. Easy to apply and low odour, it will cut your painting time by half.

Water Based - Dulux Paints

New water-based Armstead Trade Quick Dry Gloss and Satin are the smart choices when you need an affordable, fast drying, non-yellowing alternative to traditional solvent-based trim paints. You can use all your usual trim painting skills with Quick Dry Gloss and Satin, but here are a few expert tips to ensure you get a finish to be proud of.

Advice Water vs solvent based products | Dulux Trade Paint ...

What is the best water-based product to use in a kitchen or bathroom? Dulux Trade Diamond Eggshell is ideal for both. It is a tough, durable mid-sheen finish that will withstand repeated washing. If ventilation is poor and a mould resistant paint is needed use Dulux Trade Mouldshield Quick Drying Eggshell.

Advice Interior and Exterior FAQs | Dulux Trade Paint Expert

Water-Based: Water-based paints are often referred to as latex paint, but this is a bit of a misnomer since they rarely contain latex. Instead, most water-based paints today use acrylic polymers to provide the adhesion and lasting finish you want in your interior paint.

The 9 Best Paints for Interior Walls in 2020

Here's an interior-painting primer, starting with the pros and cons of oil-based and water-based, or latex, paints. Oil-based paint is more durable, but it takes longer to dry, and cleanup requires turpentine or paint thinner (mineral spirits). Oil-based paints are made with either alkyd (synthetic) or linseed (natural) oils.

Differences in Water-Based, Oil-Based and Latex Paints | DIY

Farrow & Ball has made a name for itself through its extensive range of gorgeous, rich, highly pigmented colours. From Hague Blue to India Yellow and Arsenic, their water-based paints will beautify any space. Their interior paints are available for wood, metal, walls, and floors. Some of the products available are:

Description & Documents Rust-Oleum® Zinsser® FastPrime™ 2 is an acrylic resin, water-based, interior, stain-blocking primer fit for creating a solid base for any topcoat. It is a white primer but can be tinted to any number of pastel shades by adding 2 fluid ounce of universal colorant per gallon.

Zinsser® FastPrime™ 2 Interior Water-Base Primer ...

Oil-based paints contain alkyd resins which are prone to yellowing over time. White gloss paint is particularly susceptible, especially where there are low levels of natural sunlight. Water-based paints contain synthetic resins which are not light sensitive, so will stay white for much longer. So it all depends then?

Oil or Water-Based Paint - Which is Best? - Decorating Advice

That's why we have introduced Dulux Trade Quick Dry - a new water-based trim paints range that delivers productivity and a high-quality, professional finish. For the first time, you'll be able to work faster to achieve a finish that mimics the high sheen and flowout properties of traditional solvent-based products.
