### Rapier Gearbox

Starter Gear For Historical Rapier Sword Fencing Unlike with long sword, fencing with a practice rapier is always done with a blunted steel training sword and synthetics are never used. Many rapier fencers tend to go for customized high-end rapiers produced by specialty craftsmen but you do not need such a weapon when just beginning your training.

### Castille Armory - SWORDS, SCA, HEMA

The base model is the Practice Rapier blade. It is OK, and as a beginner is a perfectly good choice. The next step up is the Bated Rapier, which is a little wider and heavier, but a more accurate representation of period rapier blades. If you decided to stick with SCA fencing, you will find this blade to be useful longer than the Practice Rapier.

All of our rapiers and fencing swords are of top quality. They are crafted in a historically accurate design and are made of nickel-plated steel except where noted otherwise. They range in size from about 39 inches long to 42 inches long, although they do vary. Swords of the Forge believes in only selling high quality products.

### Rapiers and Fencing Swords - Authentically Designed Blades

The rapier was a dueling weapon whose form was developed from cut-and-thrust swords. Its use was more brutal and forceful than the light sport fencing we know of today. Originally, starting about 1470, any civilian sword was often referred to as simply a “rapier,” but it quickly took on the meaning of a slender, civilian thrusting sword.

### Rapier Swords - Medieval Collectibles

The Sunbeam Rapier Series I boasted two-door hardtop coupe bodywork and was powered by a 1.4-liter OHV four. It featured worm and nut steering and a 4-speed gearbox. Front suspension was by independent coil and wishbone with rear semi-elliptic leaf springs and a live axle. The brakes were drums front and back.
