Reading “Dust of Kansas” with Emmet and “Civilly Disobedient” with Dee, set END GAME (Calm Act Book 1) into motion. It moves quickly and keeps you “page turning”. Apocalypse fiction hasn’t been a genre I usually read, however, “Climate Change” drew my attention along with the ‘tech’ components as the main character, Dee, has great expertise.

End game (Calm Act Book 1) Refreshing apocalyptic book that is more what my idea of what it would be like. Although EMP's and other things are possible, they are highly unlikely, where natural disasters and extreme weather happen all the time. I commend the author with a bravo! Well thought out and realistic!

The Calm Act Series by Ginger Booth - Goodreads

I read the Genesis stories beforehand to give The Calm Act some more background. I'd recommend doing that, but think they are subpar. All books are heavy on organization, meetings, preparation, talk, talk talking. The books would have benefited from a point of view directly from the less fortunate characters.

The CALM Act specifies a true peak of -2 dbFS however many broadcasters still require the old limit of the -10db specification. Until all broadcasters move away from analog and fully embrace the CALM Act in all of its digital glory we are stuck with this odd compliance - follow all of the CALM Act measures except for the odd variations of a ...

Civilly Disobedient is the first of two short stories (CALM Act Genesis) that introduce readers and literally set the stage to the Calm Act Series. The books examine what happens in the US as the issue of climate change worsens and begins to impact on daily life. I received Civilly Disobedient as a freebie for joining the writer's reading list.

Having already read End Game (End Game (The Calm Act Book 1) and eagerly awaiting the sequel, I was pleased to hear that Booth had written a brief prequel to the series. By design it's short and can easily be read in a single sitting. It sets a context for End Game but without giving too many clues as to what's to come.
