The Hydrofoil Mystery was written in 2003 by Canadian author Eric Walters. It is about a teenage boy named Billy McCracken whose mother arranges for him to go away for the summer to work with none other than the well-known inventor of the telephone, Alexander Graham Bell. Billy expects his summer to be boring, but with the German U-boats endangering the maritime coast, his work with Bell's hydrofoil becomes an adventure.

The Hydrofoil Mystery It is 1915, and Canada is embroiled in the First World War. Most of the battles may be taking place across the ocean, but Halifax is an exciting place to be - its streets are crowded with sailors and soldiers and its harbour is giving temporary berth to warships. It is, perhaps, too exciting, decides William's mother.

The mystery itself is a bit weak. The identity of the German spy is easily guessed, and the hydrofoil itself must have been a better-kept secret than it appears here. These few quibbles aside, however, The Hydrofoil Mystery is a lively, well-told tale that will bring young readers closer to their history.
