### What to do when your thermostat is wrong - CNET

We bought a new house and purchased a Noma 403 programmable thermostat and had the heating company install it in our house, but he never left us the manual and as a result we have no idea how to program it. Is there someone out there who can tell us where to go to down load a manual. I've tried typing in Noma and all I get is a catalogue from Ireland showing what lights to purchase.
